Industrial Training - JMP (23-24)

ce-jmp-interns

Learning from db design session discussion

Prof. Jigar Pandya • Mar 2

- git repo and local repo sync and collaboration is must.
 - testing happens fully i.e. automated testing tools
 - implementations of categories future scope
 - DDD ...
 - Asynchronous AJAX
 - page numbers and distribute evenly
 - mongodb cloud - collection
 - ip(Intellectual Properties) concern of resources
- All images, icon, etc any resources used. For now you all must mention references.
- when to use 'my' - when to use 'we'
 - In industry there were graphics who will develop resources like images. AI based images generation is booming.
 - Anonymous and privacy
