Data Science

Prof. Jigar Pandya • 1:04 PM (Edited 1:55 PM)

Data science involve multiple disciplines, which involve business acumen, Mathematics and Technology Expertise. Following team members together perform data science.

- Subject Matter Experts (SMEs)/Domain Specialist

- Mathematicians/Scientist who can formulate equations, algorithms, etc.

- Technology Experts, i.e. Software Engineer, Developer, Data Engineer, etc.

Know that the term "Citizen Scientist" refer to person/team who have passion of their own field and utilise data publicly shared to find out patterns, futuristic solutions, etc.

p.s. Which is key word in "Data Science", Is it Data or Science? A COIN TOSS?
