# WordCloud / TagCloud

Prof. Jigar Pandya   Jul 8 (Edited Jul 9)

Pictorial representation of analytics.

Many times the fancy background of words can be used to highlight trends while celebrities are walking red carpet or giving a pose.

Many architect/interior designer uses this technology to create giant wallpapers which actually conveys achievements of company in general or such important things.

p.s. Hadoop wordcount program has a connection to WordCloud/TagCloud example logic.
