Brewer's CAP Theorem, a profoundness of Distributed Computing
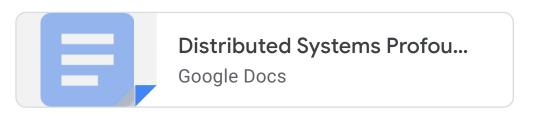

Prof. Jigar Pandya • 1:12 PM (Edited 2:16 PM)

The growth of Big Data and Analytics lay in vast usage of handheld/mobile devices and growth of storage, processing and networking architectures.

Its a observed matter on distributed computing applications and protocols thus far. Not everything aimed can be achieved. We got to live with and make choices per application.

Distributed Systems Profou...
